

Carbon: A viable forest product?

A workshop for foresters, natural resource professionals, landowners, and loggers on the current status of forest carbon markets, opportunities and challenges for the future, and tools and local examples to help understand this complex topic.

Friday, November 16, 2012

10 a.m. to 2:30 p.m.

The Montshire Museum of Science

One Montshire Road

Norwich, VT 05055

Keynote Speaker: Dylan Jenkins, Finite Carbon

Panel Presenters:

Peter Stein, Lyme Timber Company

Laury Saligman, Clear Water Carbon Fund

New England Forestry Foundation

**Carbon Assessment Tool Demonstration: John Gunn, Spatial Informatics Group -
Natural Assets Laboratory**

Topics will include:

- A brief history and more detailed current status update on markets for forest carbon offsets;
- Close-to-home examples of how landowners are attempting to access regulated and voluntary markets for forest carbon;
- Tools and resources to understand the current or future opportunities for sale of forest carbon offsets from northeastern forests; and
- What landowners need to do and think about now to keep their options open for carbon and traditional forest product sales in the future

Advance registration is required, with a \$5 fee asked of participants who would like lunch. [Register online](#) or by calling Laura Deming at (603) 224-9909 x335

Co-sponsored by:

Audubon Vermont, New Hampshire Audubon, Northern Forest Center,

Society for the Protection of New Hampshire Forests and
